MindOx Techno Private Limited

Level 03, No. 208 Stanley Tilakaratne Mawatha

Nugegoda

Dear Hiring Manager,

I am excited to apply for the Automation Engineer Intern position at MindOx Techno. As a BSc (Hons) Software Engineering student at the University of Bedfordshire with hands-on experience in automation and system integration, I believe my skills align with your needs.

Here's why I would be a great fit:

- **Technical Skills:** Proficient in Python, Java, and C++, with experience in control systems and robotic controllers.
- **Project Experience:** Led the development of automation solutions like the Volta robot, which won first place island-wide.
- **System Integration:** Worked on full-stack projects such as the Sumaga Education Institute web app and Car Care desktop app.
- **Leadership:** As ICT Society President and Co-Founder of the IoT Society at Thakshila College, I developed strong teamwork and organizational skills.

MindOx's focus on semiconductor equipment and innovation matches my interests and career goals. I'm confident my skills in automation, documentation, and problem-solving can contribute to your success.

Thank you for considering my application. I would welcome the chance to discuss how I can support MindOx's innovative projects.

Sincerely,

Eshan Gunathilaka
